

Northeast Scuba

Dive Right In!

Welcome to Northeast Scuba!

Northeast Scuba is a full service Massachusetts scuba diving facility offering a wide variety of new and used diving equipment, rentals and maintenance/repair work on all the leading scuba diving brands for Boston and New England's and New Hampshire's scuba diving needs. Conveniently located just off of I-495 at Exit 34 in Chelmsford, Massachusetts, we service diving and snorkeling enthusiasts from the Boston metro area, Southern New Hampshire (Nashua and Salem) as well as surrounding towns.

We teach beginner to advanced scuba diving courses as well as specialty scuba classes and technical dive training. Organized dive trips to both local and exotic destinations are available year round. The Open Water Referralcourse allows you to complete the academic and pool session here and earn your certification by completing your four dives while on vacation. Photography and photoshop services. Want to try diving without signing up for a course? Check out our Try Scuba program for a great introduction to scuba diving!

Our instructional programs include courses from the beginner level with the Open Water Diver course up through Advanced / Specialty Courses such as Underwater Digital Photography and Wreck Diving. We also offer advanced and leadership level courses and instructor level training through SSI, PADI, TDI, IANTD and PSAI. Customized scheduling is available for those individuals who cannot make our regularly scheduled programs as well as private and group instruction for all of our courses.

Recreational Courses: Open Water and Specialty Programs

Interested in learning how to dive or maybe continuing your own diving education? Northeast Scuba can meet your **Boston scuba** needs and busy schedule. We have classes for the beginner all the way through instructor and instructor specialty courses. We offer over thirty different snorkeling and diving programs. For example, you can participate in our **Open Water Diving courses** (click on the hyper link for more info on the beginner course) during weeknights or through our intensive weekend schedules. Classes begin approximately every four weeks, all year long. We also offer executive, semi-private, and group lessons. Check out our schedule for the course that fits your diving plans. You know have a FREE on-line e-learning option **E Learning**:

Open Water Referral Course: Many of Northeast Scuba's customers plan vacation getaways in the winter months but would still like to earn their Open Water certification. We can help you. Our Referral Program allows you to complete the academic and pool training sessions here and the four open water dives at your destination of choice. Check out the details on our Open Water Referral page.

Not sure about learning scuba? Sign up for our "Try Scuba" program and receive classroom and pool instruction. You will be in the water before you know it, breathing underwater!

Once you've completed your Open Water course, don't stop learning. The next course to consider is the **Advanced Adventurer Open Water** program. In this class, you'll be exposed to new diving environments and skills.

Continuing Education: Your Open Water course will open the doors of underwater exploration for you. Whether your interests lie in capturing marine life images through underwater photography, exploring wrecks, learning about the life in our marine environment, or traveling to exotic places for more underwater thrills, Northeast Scuba can help you with your diving interests through our extensive Continuing Education offerings. Check out the courses we offer and see which ones might satisfy your need for more scuba adventure!

Specialty Diver Programs:

We offer the following New England scuba classes on a regular basis. See the schedule for the next class dates. Call to reserve your space in our next continuing education course. The same **Massachusetts scuba** courses are available as SSI Instructor Specialties:
